

Datasheet Evido WR+

- Stylish compact silent form factor.
- 12th Gen Intel Core i3 CPU.
- Pre-installed Wave VMS.
- Dual HDD storage with RAID support.
- NVMe SSD for the OS.

Product Description

The Evido WR+ is a 2-bay compact Nas model in the Evido server family adapted for camera installations up to 50 cameras with pre-installed Hanwha Wave VMS.

It offers super easy deployment by the pre-installed Wave VMS. Wave licenses are ordered separately depending on the number of cameras to be used. An 8TB hard drive for video storage is included and the option to increase with 1 more hard drive. Wave has the ability to store network storage device when more space is needed.

Please contact Teletec for additional information about the specifications, features, options, benchmarks, configurations, appliance software or any other inquiry.

Datasheet Evido WR+

Specifications

Model name	Evido WR+
Form factor	2-bay NAS-box
Chipset	Intel H670
CPU	Intel Core 12th Gen i3
Memory	2x 8GB DDR4 2666MHz
Memory type support	-
Maximum memory capacity	64GB DRAM
Graphics controller	Intel integrated
Graphics interface	1xDP (4K), 1xHDMI (4K)
LAN interface	1 x 1Gb LAN, 1 x 2,5Gb LAN
Wireless interface	Bluetooth, Dual Band 802.11ax WiFi
Audio interfaces	Front: Mic in, Line out
Communication interfaces	Front: 1x USB 3.0,
OS drive type	250GB M.2 NVMe
Storage drive(s)	See PN-overview
Storage options	2 x 2.5"/3.5" drive bay (pre-installed 1x8tb) 1 free slot
Operating system	Linux Ready, Windows 10 IoT Enterprise, Windows server 2022
Maximum storage	36TB RAW
Storage RAID option	RAID 0, RAID 1
RAID controller	Intel RSTe
Power input	100-240 VAC
Power supply	60W power adapter included
Power consumption	-
Dimensions (WxHxD)	140mm x 254mm x 180mm
Weight	-
Operating temperature	HDD: 0°C – 35°C, SSD: 0°C – 35°C
